

# Image Upload / Download Manual Testing

## Test 1: Upload Valid Image Type (.png, .jpg, .jpeg)

Step 1: Users click the choose files

The screenshot shows the Riki website editor interface. The browser address bar displays "Not Secure | 192.168.1.96:5006/edit/home/". The navigation bar includes links for "Riki", "Home", "Index", "Tags", "Search", "Profile", "New Page", and a "Select Language" dropdown. The main editor area has two tabs: "Editor" (active) and "Preview". The "Editor" tab shows a text input field with "home" and a larger text area containing "aryan's home". Below the text area is a "Tags (comma separated)" input field. At the bottom, there is a section titled "Upload to add an image." with a "Choose File" button and the text "No file chosen". On the right side, there is a sidebar titled "Editor How-To" which provides instructions on using markdown for lists, bold/italic text, links, and headers.

Editor [Preview](#)

home

aryan's home

Tags (comma separated)

Upload to add an image.

[Choose File](#) No file chosen

**Editor How-To**

This editor is [markdown](#) featured.

- \* I
- \* am
- \* a
- \* list

Turns into:

- I
- am
- a
- list

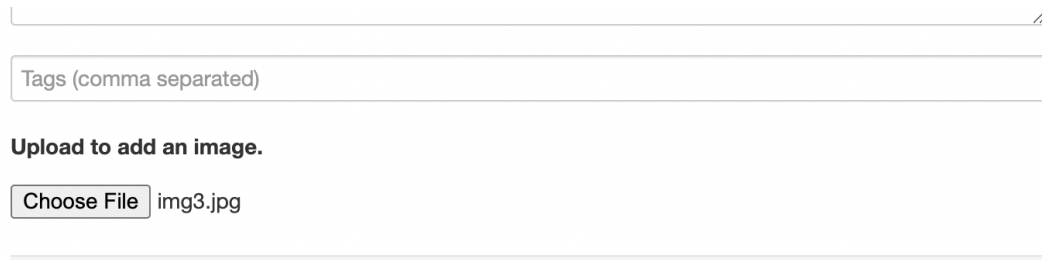

**\*\*bold\*\*** and *\*italics\** turn into **bold** and *italics*. Very easy!

Create links with [\[NoTube\]](#) (<http://www.notube.com>). They turn into [NoTube](#).

Headers are as follows:

- # Level 1
- ## Level 2
- ### Level 3

Step 2: Upload a valid image type (Title and Markdown required)

The screenshot shows the Riki website editor interface. The "Tags (comma separated)" input field is visible. Below it, there is a section titled "Upload to add an image." with a "Choose File" button and the text "img3.jpg".

Tags (comma separated)

Upload to add an image.

[Choose File](#) img3.jpg

### Step 3: Image Uploaded Successfully

## home

Image uploaded successfully!

"home" was saved.
